

I'm not a robot!

The many descriptions of movement scenes and mine dances are designed to stimulate penetration into the inner life of man from where movement and action originate. That a second edition appeared was solely due to the efforts of Lisa Ullmann, who, better than anyone else, was aware of the changes Laban had intended to make. The relationship between the internal motivation of movement and the external functioning of the body is explored. The student is introduced to the basic principles underlying the movement of expression and experience and the numerous exercises are designed to challenge their intellectual, emotional and physical responses. In times of war, digital resources face threats ranging from disinformation, cyber attacks and the destruction of infrastructure.
